

HEALTH & BENEFIT ACCOUNTS

Qualified health care expenses

Pay for a wide range of eligible expenses using your accounts

Health Savings Accounts (HSAs), Health Flexible Spending Accounts (FSAs) and Health Reimbursement Arrangements (HRAs) are all tax-advantaged, so the IRS defines the types of expenses that you can pay for with these accounts. Generally, qualified expenses include doctor visits, medications, medical equipment, and dental and vision care for you, your spouse and any eligible tax dependents.

Examples of qualified medical expenses

Important tips

- If you have a Limited Purpose Flexible Spending Account (LPFSA), remember that it can only be used to pay vision and dental expenses.
- If you have an HRA, check your plan details for specifics on qualified expenses.

Eligible Expense Scanner

Our barcode scanner takes the guesswork out of what items the IRS considers qualified expenses. Just open the MyHealth mobile app¹, select “Eligible Expense Scanner” from the menu, then simply scan the item barcode to find out if it can be paid for using your health account.

For additional information

View IRS Publication 502 for a complete list of qualified expenses, and be sure to check for subsequent legislative updates.

Please refer to your employer’s plan description to confirm the qualified expense list available to you. Certain expenses may be subject to stricter scrutiny by the Internal Revenue Service (IRS). In this case, you may have to provide the IRS with substantiation or documentation from a physician that the service or treatment was necessary to treat a specific medical condition and/or that the expense would not have been incurred but for the medical condition.
